

The Herb Cashvan Memorial Special Volunteer Award

Jeanne Shanin

January-February
2024

Do you enjoy the music we listen to at Friday night services? This music does not magically appear each week. On Sunday afternoons, Rabbi Carla views myriad YouTube videos to choose new and interesting renditions of traditional Hebrew songs for us to view and enjoy. Rabbi culls her list, and she sends those song links to Jeanne. Here is where the real magic comes into play—Jeanne painstakingly trims the videos of advertisements and introductions which add little interest to the music. Jeanne then uploads the trimmed videos to the Cloud, which allows Tech members to download for our service.

Jeanne sends Rabbi's recorded classes to our congregation. This is integral for many of our congregants who cannot attend Rabbi's classes at their assigned times but want to stay apprised of the content. She also sends us the weekly link to our Shabbat service on YouTube.

Well-versed in sound board technology, Jeanne often operates our sound board, music computer, and liturgy computer during services. She is a calming influence on the slightly nervous Tech Team, to say the least.

Congratulations on a job well done, Jeanne, and enjoy your parking space for January and February!
